EXPERTISE

Phoenix Cyber has been providing cybersecurity services to the U.S. Federal Government since 2011. Our services are available through a number of contract vehicles to simplify the procurement process for Department of Defense agencies, federal civilian agencies, and their contracting offices. Our team is comprised of senior cybersecurity consultants and engineers with expertise in architecting results-oriented, cybersecurity solutions; and the operational processes to ensure accurate incident detection, enrichment, and response.

SERVICES

Phoenix Cyber offers a set of engineering, operations, and sustainment services designed to deliver the solutions you need to meet today's cybersecurity challenges. Our cybersecurity solutions reduce your Security Operations Center (SOC) workload by a**utomating 80-90% of your incident response process**. Our services and solutions are provided on-premises, remotely, or hosted within MilCloud, GovCloud, and commercial cloud environments. This flexibility allows DoD and civilian agencies to rapidly procure and implement these security offerings.

ABOUT US

Phoenix Cyber is an ISO-9000, ISO 20001, ISO 270001, CMMI Level 3, and CMMC Level 2-certified leading cybersecurity and technology consulting company providing architecture, engineering, and operations cybersecurity and technology expertise to organizations determined to mitigate risk and safeguard their business. We have delivered cybersecurity solutions to the Federal Government since 2011 as a certified small business.
